What Sets OBXtek Apart

OBXtek reduces uncertainty by providing insight and warning about potential threats to the national security of the United States, the safety of its citizens, and its interests around the world. OBXtek's intelligence professionals identify, curate and produce valuable, actionable intelligence that enables successful missions.

Our People

OBXtek professionals possess the precise background and clearance needed to completely support customers including Top Secret (17%), Secret (33%) and Sensitive Compartmented Information (12% of the cleared employees) access.

Our Reputation

OBXtek has extensive experience engaging in and supporting sensitive global operations. Since 2013, we have supported more than 450 projects outside of the United States (OCONUS) of which many were in areas classified as "dangerous" or "high threat."

CYBERSECURITY
OBXtek employs experts in RMF and A&A, using proven techniques to eliminate unnecessary risk and protect the confidentiality of your data.

ENTERPRISE IT SERVICE MANAGEMENT
OBXtek has the expertise to accurately scope, design, implement, and manage IT.

IT ENGINEERING
OBXtek delivers a forward thinking, full lifecycle approach of strategy, assessment, architecture, deployment and maintenance.

SOFTWARE, CLOUD AND MOBILITY
OBXtek's flexible CMMI Level 3 approach results in forward leaning, cost-effective and secure applications.

LOGISTICS
From Acquisition Support to Logistics, Training and Professional Services, our Logistics Practice experts turn data into actionable insights to solve real-world problems.

INTELLIGENCE
OBXtek identifies, curates and produces intelligence products that provide valuable, actionable intelligence and enable customer mission success.

Human Intelligence (HUMINT)
OBXtek's HUMINT professionals develop relationships with select audiences to enhance diplomatic efforts by supplying predictive analytics and important messaging. Our country experts deeply understand culture, historical context, people groups, languages and dialects, and boundaries.

Intelligence and Data Analysis + Open Source Intelligence (OSINT)
OBXtek's analysts support customers across a wide range of "INTs." Our data experts work with unstructured and structured data to extrapolate and translate it into insightful, contextual intelligence for operations.

OBXtek's OSINT analysts use top targeting techniques, tactics and procedures. We know where to obtain, as well as how to parse available data down to an understanding specific for the mission.

Counterterrorism (CT)
OBXtek's professionals leverage an in-depth understanding of global CT endeavors to help with planning, collaboration, CT effort facilitation, critical resources sourcing and training.
