What Sets OBXtek Apart

At OBXtek, our Acquisition and Program Management activities work hand in glove to ensure proper planning, acquisition, and execution of requirements to support your program. Whether assisting DoD customers in acquisition milestone process documentation needed for the Milestone Decision Authority or providing our civilian customers with acquisition planning and support, OBXtek is a conflict-free, trusted advisor, providing the expertise required to guide successful acquisitions.

Our People

OBXtek's acquisition and program management personnel are recognized experts in their fields with multiple advanced certifications including the Project Management Professional (PMP), Defense Acquisition Workforce Improvement Act (DAWIA), and GS-1102 contract specialist certifications.

Our Reputation

OBXtek delivers comprehensive acquisition and program management services to plan your project and keep it on schedule and within budget. Working in tandem with your program staff, we bring subject matter expertise, trusted advisors, and proven management processes. OBXtek personnel have been recognized by the Assistant Secretary of the Air Force receiving awards for both innovation and leadership.

CYBERSECURITY

OBXtek employs experts in RMF and A&A, using proven techniques to eliminate unnecessary risk and protect the confidentiality of your data.

ENTERPRISE IT SERVICE MANAGEMENT

OBXtek has the expertise to accurately scope, design, implement, and manage IT.

IT ENGINEERING

OBXtek delivers a forward thinking, full lifecycle approach of strategy, assessment, architecture, deployment, and maintenance.

SOFTWARE, CLOUD AND MOBILITY

OBXtek's flexible CMMI Level 3 approach results in forward leaning, cost-effective, and secure applications.

TRAINING AND LOGISTICS

From logistics, training, and professional services, our logistics practice experts turn data into actionable insights to solve real-world problems.

ACQUISITION AND PROGRAM MANAGEMENT

Our acquisition and program management activities work hand in glove to ensure proper planning, acquisition, and execution of requirements to support your program.

Cradle-to-Grave Acquisition Support

From Initiation, Planning, Procurement, System Development, System Implementation, Maintenance & Operations, and Closeout our team utilizes processes to successfully guide your project.

Planning, Programming, Budgeting, and Execution (PPBE)

Our experts provide analysis of alternatives, economic assessments, formulation, justification execution, and control of the budget to deliver a defensible, executable project.

Financial Improvement and Audit Readiness (FIAR) Guidance

Our personnel work with your financial resources implementing the FIAR methodology to define the key tasks, underlying activities, and resulting work products that allow your organization to become audit ready.

Program Management

We utilize our ISO9001:2015 quality management system, CMMI for development and services, and the Project Management Institute's Project Management Body of Knowledge (PMBOK) to deliver operational excellence.

Milestone Decision Authority Support

Our experts provide experience developing the necessary artifacts required for milestone A, B, and C recommendations to the Milestone Decision Authority.

Systems Engineering Technical Assistance (SETA)

OBXtek provides analysis and engineering knowledge, working closely with the government's own engineering staff members providing quick availability of expertise utilizing the latest technologies, without the commitment of sustaining long term staff.
