What Sets OBXtek Apart

OBXtek re-invents and re-engineers software systems as part of the digital transformations to federal technology structures. OBXtek is an Amazon Web Service (AWS) and a Microsoft Azure partner.

Our People

Our experts are innovation-led, insight-driven, and integration-focused transformers who are certified in Amazon Web Services (AWS) SysOps, AWS Architect, Oracle databases, IBM Db2 database, Microsoft SQL, Microsoft Azure MySQL, NoSQL databases, Teradata, SAP HANA, and data warehousing/ETL operations.

Our Reputation

OBXtek has a reputation for digitally empowering federal organizations with modernized solutions. OBXtek migrated the U.S. Department of Transportation's Federal Motor Carrier Safety Administration's infrastructure to a Federal Risk and Authorization Management Program (FedRAMP) compliant data center.

CYBERSECURITY

OBXtek employs experts in RMF and A&A, using proven techniques to eliminate unnecessary risk and protect the confidentiality of your data.

ENTERPRISE IT SERVICE MANAGEMENT

OBXtek has the expertise to accurately scope, design, implement, and manage IT.

IT ENGINEERING

OBXtek delivers a forward thinking, full lifecycle approach of strategy, assessment, architecture, deployment, and maintenance.

SOFTWARE, CLOUD AND MOBILITY

OBXtek's flexible CMMI Level 3 approach results in forward leaning, cost-effective, and secure applications.

TRAINING AND LOGISTICS

From logistics, training, and professional services, our logistics practice experts turn data into actionable insights to solve real-world problems.

ACQUISITION AND PROGRAM MANAGEMENT

Our acquisition and program management activities work hand in glove to ensure proper planning, acquisition, and execution of requirements to support your program.

Cloud Solutions & Services

OBXtek offers multiple patterns of cloud enablement, including a FedRAMP-certified GovCloud. Our GovCloud initiative is available to re-host, re-platform, re-purchase, and re-factor applications.

We also offer a FedRAMP-certified, 24/7 managed data center, which ensures the security, integrity, and availability of enterprise application and sensitive data.

Digital Transformation

OBXtek e-enables mission-critical functions without disrupting daily operations.

Our specialization in a broad spectrum of Enterprise Content Management (ECM) solutions means the ideal platform at the right price point is selected for each customer's needs.

Data Solutions

Our experts can design, store, warehouse, and mine structured and unstructured data. OBXtek excels in Enterprise Content Repositories, such as Oracle Web Center Content, IBM Web Content Management, Liferay, SharePoint, and Drupal.
