What sets OBXtek apart

Mobile device-based information delivery and transactions are the future.

Our People
OBXtek experts develop a deep understanding of the current and target states, as well as the best solution, using the latest system and software development methodologies, technologies, and risk management processes.

Our Reputation
While OBXtek has strategic partnerships with technology vendors such as AWS, Microsoft, and Oracle, we remain technology agnostic when it comes to solving customer challenges as each environment is unique.

CYBERSECURITY
OBXtek employs experts in RMF and A&A, using proven techniques to eliminate unnecessary risk and protect the confidentiality of your data.

ENTERPRISE IT SERVICE MANAGEMENT
OBXtek has the expertise to accurately scope, design, implement, and manage IT.

IT ENGINEERING
OBXtek delivers a forward thinking, full lifecycle approach of strategy, assessment, architecture, deployment, and maintenance.

SOFTWARE, CLOUD AND MOBILITY
OBXtek's flexible CMMI Level 3 approach results in forward leaning, cost-effective, and secure applications.

TRAINING AND LOGISTICS
From logistics, training, and professional services, our logistics practice experts turn data into actionable insights to solve real-world problems.

ACQUISITION AND PROGRAM MANAGEMENT
Our acquisition and program management activities work hand in glove to ensure proper planning, acquisition, and execution of requirements to support your program.

Mobile App Development & Mobile Device Management

OBXtek offers support for a range of application hosting solutions and service level agreements to fit operational needs and budget requirements.

OBXtek's experts help customers go mobile with engaging and high-retention apps.

Our toolkit consists of the Microsoft Xamarin ecosystem, PhoneGap, AirWatch (for MDM), Node.js, and a whole host of JavaScript libraries.

Business Process Management (BPM)

At OBXtek, we help re-engineer business processes and transition to one of many BPM and case management platforms, such as Oracle BPM, IBM BPM, Appian, PegaSystems, or Salesforce.

Our industry focus is on case management solutions specific to the federal and state governments, which includes various segments of citizen services.
